

Solar Panel with Control and Inverter

Advantage:

- 1) To be used for DC & AC appliances. Use for various electrical utilities. Use for MP3, TV, fans and small household appliances.
- 2) Time-saving, equip with a high-efficiency solar panel for short charging time.
- 3) Low Maintenance.

Charging:

- 1) Placed solar panel under direct sunshine.
- 2) Once the battery is fully charged, the controller will automatically protect the battery against over charging.
- 3) When there is a output overload or the battery capacity is inadequate, the controller will cut in to be protected the system.

Attention:

* Place Inverter out of reach of children . Keep out off rain.

*When using 220V inverter, pay attention to insulation requirements to eliminate electric shocks.

Model	SAC-400W	SAC-300W	SAC-200W	SAC-150W
Solar Panel	400W(100W*4pcs)	300W(100W*3pcs)	200W(100W*2pcs)	150W(75W*2pcs)
Inverter	1000W	1000W	600W	600W
Controller	20A	20A	20A	20A
Solar Cables	10m			
Mounting Bracket of Solar Panel	Not included ,but we could supply if you need			
Battery(Not Included)	100Ah(2pcs)	100Ah(2pcs)	100Ah(1pc)	100Ah(1pc)
	** Not included battery because of heavy weight, please buy in your local place & install			
Use for AC Voltage	220V	220V	220V	220V
Use for DC Voltage	24V	24V	12V	12V
Resistive Load	1000W	1000W	600W	600W
DC Maximum Output	20A	20A	20A	20A
Approximate Charging Time for battery full	5-6hours	7-8hours	5-6hours	7-8hours
Price (Subjected to change without notice)				
	R 11,265.60	R 8,848.10	R 8,493.52	R 7,462.50
Included Accessories	Solar panel, Inverter, Controller, all cables are connected and ready to use			
Delivery Time	4 to 6 Weeks after placement of order
